

Crestliner. Creating Long Lasting Boats
For Long Lasting Memories.

The Leader by Innovation™

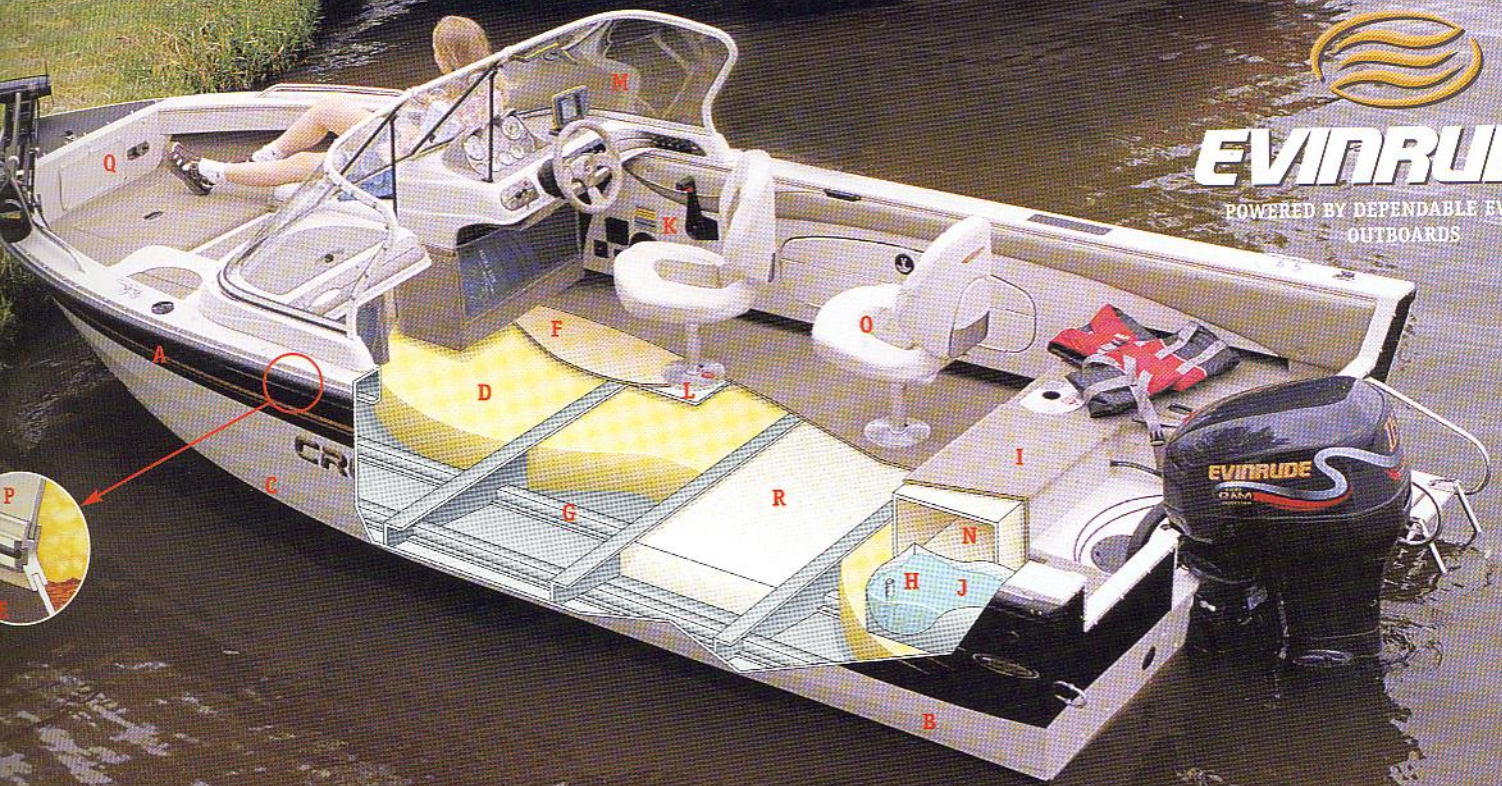

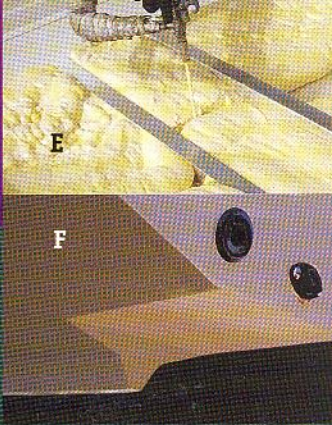

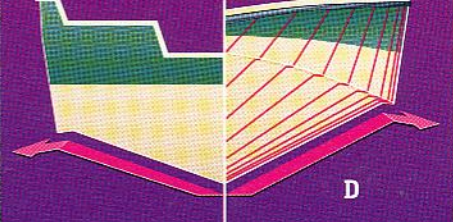

Two thousand one

EVINRUDE

POWERED BY DEPENDABLE EVINRUDE
OUTBOARDS

Crestliner gives you more innovations than you'll find on any other line, at any price. Innovations like our (A) all welded UniWeld construction for strength and durability; (B) UniWeld Hydro Tech transom design for a smoother, drier ride; (C) SST transom gives you more cockpit space and cuts down on motor noise; (D) Reverse chine design for fastest planing; (E) our balanced, closed-cell flotation meets or exceeds U.S. Coast Guard regulations; (F) Tournament Series models feature the Tru-Trac center keel with Quick Shot Transom that fires you out of the hole, gets you up on plane faster and keeps you on track, even during turns and in winds that would blow lesser boats off the water.

in and year out, Crestliner puts
er boating ideas on the water.

ES:
d style with full-length graphics
e construction for faster planing and drier ride
ree hull with UniWeld construction and our 20+3 Protection Plan
sed-cell foam meets or exceeds Coast Guard regulations
elded with our exclusive tongue-in-channel system that
bond and adds rigidity.
ated deck panels carry a lifetime limited warranty and are finished
-grade carpet or vinyl
inger superstructures strengthen and support every inch of
ats
wells and bait stations with removable bait pails on some models
Form with roomy storage compartments
s feature lighted livewells that aerate and recirculate water
feature 12 volt power outlets to power phone, spotlight or other gear
e seat pedestals are reinforced with aluminum below-deck plates
nt dash with Euro-style wraparound windshield or windscreen
storage areas for batteries and other gear
omfortable Pro Form fishing seats
unnel bumpers protect the paint and graphics
d trolling motor panels feature motor hookups and space for
uge and motor tilt switch
as tanks feature reserve fuel reservoir on some models

N FEATURES:
l-channel fencing for a smooth finish with no rivets to rattle or
ne-grade carpeted decks (optional Alpha TUFF-Ply vinyl shown)
-Cast helm
heads with top-mount air vents equalize pressure in case of
nated bimini top is included on all models
Cast furniture for cruising or fishing packages
uminum cross-members add strength and rigidity
uminum tubes with full-length extruded keels for better tracking
urability (27" on LSi models)
ated deck panels carry a lifetime limited warranty

We've earned our reputation as
The Leader by Innovation™

because of how we transform concepts into form. Ideas into fea-
tures. We take pride in understanding fishing and boating better than
our competitors. We work hard to create ideas that make your boating and
fishing experience better. Then, we put those ideas on the water. Every year
we add more innovations to our line:

- Our Tru-Trac keel is larger and deeper for better control in cornering and especially when trolling.
- Our UniWeld Tongue & Groove Construction adds rigidity and strength to the welding process.
- The Quick Shot Transom design fires you out of the hole and gets you on plane fast.
- Our Wide Beam concept adds stability and gives you plenty of extra room to cast, rig tackle or just stretch out and relax.
- Our 20+3 Protection Plan sets the industry pace and offers

you complete boating peace of mind.
Innovation touches every part of our busi-
ness- from design and construction to warranty

and service, right down to the detail work of fit and finish. So,
when you choose a Crestliner you can be proud that you own
a craft that's the best value on the water today.

2250 EAGLE 1/0

CRESTLINER

2160
EAGLE
SST

2450 EAGLE I/O

Eagles feature: (A) hideaway tables and seats for cruising or rigging tackle; (B) optional hardtop with electronics box, rod holders and utility lights; (C) comfortably roomy cuddy cabins offer privacy, shelter, extra storage; (D) our patented Pocket tucks in a kicker motor that you run from the comfort of the cockpit. It's no wonder the Eagle has been selected as the official boat of the Minnesota Governor's Fishing Opener.

"Insignificance bothers me. Small talk. Small ideas. Water you can see across."

20PLUS
20-Year Hull Warranty
3-Year Bow-To-Stern

I like to err on the side of excess. Take my boat. It's an Eagle and built for big fish, big comfort and big water—inland or offshore. It gets you from sunrise to sunset in

style with a sleek Tru-V, rivet-free aluminum hull that's stronger (i.e. durable) and lighter (i.e. fuel efficient). And the Eagle's big on comfort, too. Cabins are wide and roomy. The walk-around decks, big as all outdoors. Cavernous dual fishwells. Large capacity fuel tank. And exclusive Crestliner innovations like the Pocket, Space Saver Transom (SST) and the 20+3 Protection Plan. The Crestliner Eagle, can't say enough about it."

NTOM SST

PHANTOM SST

2100 PHANTOM SST

Your Phantom is loaded with big water fishing extras like (A & B) dual aerated livewells that circulate fresh water; (C) a suntop that stores quickly and easily in a special storage compartment; (D) SST (Space Saver Transom) is our patented way of giving you more cockpit room while cutting

engine noise; (E & F) our patented conversion bow transforms from a fully-rigged fishing deck to comfy bow lounge in seconds; (G) under-console storage is just one of the ways your Phantom gives you more places to stow extra gear.

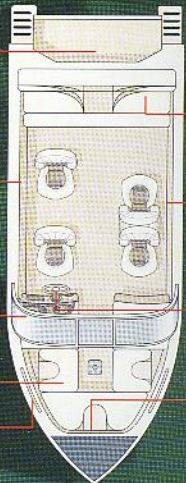

"I wanted an aluminum fishing boat, the family wanted a fiberglass runabout. We bought a Phantom."

The Phantom is a serious fishing rig cleverly disguised as a sleek family runabout. This boat has great downrigger access, patented SST (Space Saver Transom), conversion bow, rod locker, swim platform, stainless steel bow rails, bow cushions and more— they're all standard on a Phantom. I looked at ordering them on another brand of boat and found I'd end up paying a lot more for less. The 2001 models have increased legroom for us taller folk. All this, and more, set on an all-welded, rock-solid aluminum hull that looks every bit as good as fiberglass but with less weight. Crestliner calls this the pride of their line. I know it makes me proud to own one."

- SST Transom W/Platforms & Ladder
- 2 Pro-Form Fishing Chairs
- Under-Console Storage
- Lockable Storage
- Tru-V 17° UniWeld Hull Design
- AM/FM Stereo Cassette W/2 Speakers
- Conversion Bow w/Storage & 20 Gal. Aerated Livewell
- Stainless Steel Bow Rails

SPORTFISH 1/0

1850 SPORTFISH 1/0

ERCURY
The Water Calls

2050 SPORTFISH 1/0

You'll find a Sportfish has just what it takes to keep everybody happy. Our famous (A & B) conversion bow transforms instantly from a fully-rigged pro fishing station with Pro-form seat to a lounging area; (C) stern casting platform doubles as a plush sundeck complete with stow

away pad; (D) custom travel cover delivers secure protection when trailering; there's a handy (E) built-in rear cooler that keeps refreshments within easy reach; and our (F) patented Pocket with standard Electro-Steer that lets you run a kicker motor from the comfort of your helm.

"Why a Sportfish? 'Cause summers are just too short to waste time scratching your head over whether to fish or ski."

We may not see eye-to-eye on how to have fun but we all agree on where to have it: on the water in a Sportfish I/O. This rig trailers real easy. And, with its Tru-V, all-welded hull, it's a snap for any of us to handle on the water. The dash and windshield

are raised in the 2001 model so the cockpit is deep and there's plenty of legroom.

Wanna fish? There's a troll motor plug pre-wired for 12 or 24 volt systems and conversion bow along with huge aerated livewells fore and aft. Seems like there are places to store gear everywhere you look. Removable rear seats and cooler are standard, as is the Pocket. For cruising, there's a stowaway stern sundeck pad and open bow seating. Summers are still short, but we pack in more fun with a Sportfish."

SPORTFISH O/B

2050
SPORTFISH O/B

1750 SPORTFISH O/B

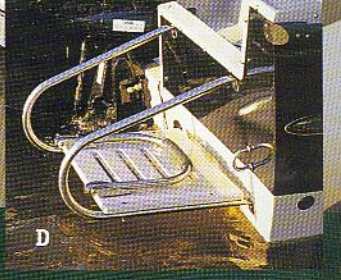

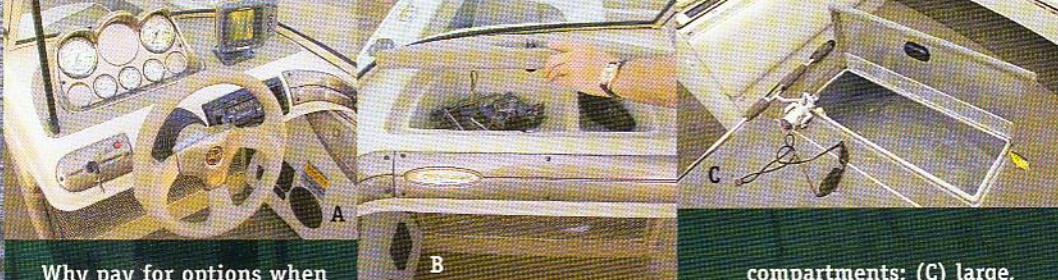

1850 SPORTFISH O/B

EVINRUDE

POWERED BY DEPENDABLE EVINRUDE
OUTBOARDS

Why pay for options when you get 'em standard on a Sportfish? Included are features like (A) custom dash with AM/FM stereo cassette, tilt steering wheel, room for electronics and instruments and lots of leg room below; (B) extra deep, locking glove box with twin

compartments; (C) large, aerated bow livewell that keeps your catch fresh all day; (D) optional heavy duty swim platform; (E) rod-saver storage; (F) stern fishing deck with seat bases and additional livewell; (G) optional canvas enclosures for shade or shelter.

“Never thought we had much in common with the neighbors. Until I saw their Sportfish. Same color as ours.”

The family next door is quiet. Kind of keep to themselves. We like fun full bore, flat out and high volume. That's why it surprised me, at first, to see the neighbors in a Sportfish O/B. This rig is fun, fast and furious. One minute you're in a fully-rigged fishing boat. The next, you're set up for skiing or just chasing the wind around the lake in comfort. But then I thought, where there's versatility, there's value and value is something that appeals to everybody. That's why this boat is probably the best-selling fish & ski boat in the world. Fish, ski, cruise, swim. Name your fun, this boat delivers it. The Sportfish is wide, stable and easy to handle. Both on the water and on the road. The rivet-free, Tru-V hull is rugged and backed with an exclusive 20+3 Protection plan, the best warranty on the water. The windshield and dash are raised a bit higher than other boats, so there's extra cockpit space and legroom. If you want to see a Sportfish, chances are there's already one in your neighborhood somewhere.”

PER HAWK

1600 SUPER
HAWK O/B

1700 SUPER HAWK O/B

1800 SUPER HAWK I/O

1800 SUPER HAWK O/B

Check out the Superhawk's super features: a (A) second aerated livewell in the stern of the 1700 and 1800 O/B models; (B) extra, netted under-console storage to keep gear safely stowed; (C) rod saver system; (D) Master Power rocker switch for single-switch control of the boat's power source; (E) optional, rugged swim platform makes it easy for swimmers or skiers to reboard; (F) acres of easy-access bow storage.

"We'd dreamt of finding an affordable fish & ski boat that didn't skimp on quality. This was our wake-up call.

'Sprawling forward casting deck, wide and stable casting platforms aft, giant rear livewell (except on the 1600), trolling motor outlet, extra legroom and cockpit depth.' We read the specs on a Crestliner Super Hawk. Twice. Couldn't believe it was possible to get this much fishing boat for such a hot price. Had to be a misprint. It wasn't. We went to a dealer just to look. The one we bought is over there on the left. What you don't realize until you climb into this is the unbelievable comfort in the Pro-Form pedestal seats, how much room there is to store gear and rods, the stability and maneuverability of this craft. The smooth quality of the features like Euro-style windshield and high-tech dash. Doesn't matter if we fish or ski, we're constantly finding new reasons to love this boat and pinching ourselves over the deal we got."

RAMPAGE

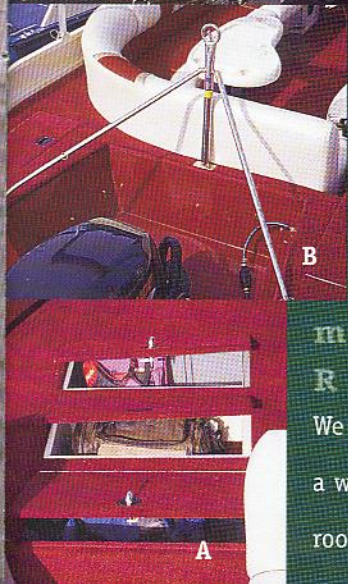

2300 RAMPAGE I/O

2100 RAMPAGE O/B

MERCURY
The Water Calls

Features include (A) lots of storage for water toys and fishing gear everywhere you look including the bow; (B) optional ski tow pylon on O/B models keeps the load securely centered; (C) optional rugged, retractable boarding ladder; (D) pop-up privacy enclosure for changing or optional Porta-Potti; (E) the optional fishing package adds an aerated livewell, two fishing chairs and pre-wired troll motor outlet.

"Every year our group gets bigger, more diverse. That's okay, our Rampage is very accommodating."

We hang pretty loose all summer. No schedules, no worries. One minute we're partying on the boat. Then somebody a wild hair to flip a bait so we scamper off in search of the wily bass. That's what makes the Rampage so perfect. It's room, comfort, plenty of attitude. You want to talk features? This rig has features that deliver fun in all flavors and on a moment's notice. Roto-cast furniture, pop-

up changing room and other innovations make this a real kick-butt party, cruise and ski boat. The fishing package makes the deal even sweeter by adding an aerated livewell, twin fishing chairs and pre-wired troll motor outlet. The V-hull is sleek. It rides smooth, rides dry, handles like a dream.

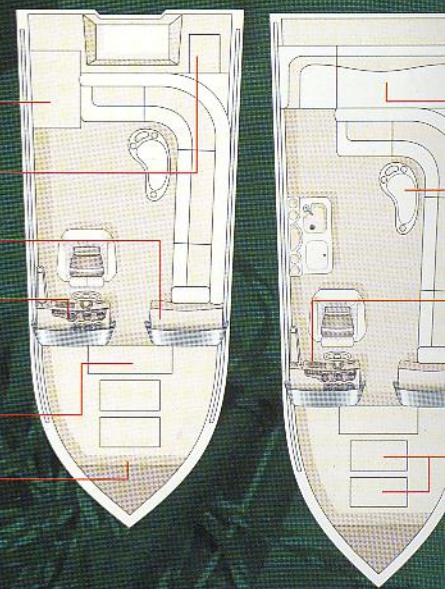

This boat is all things to all people. Skeptical? Load up your skis, your tackle and scoot on down. We'll treat you to a Rampage experience."

2485 LSi O/B

2085 LSi

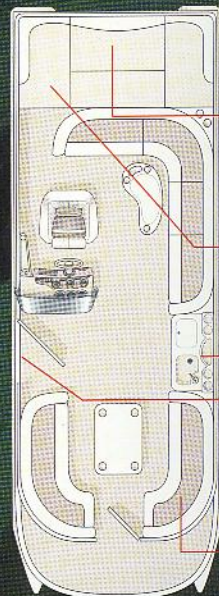

2485 LSi I/O

Your LSi offers a range of creature comforts like (A) entertainment center with sink, cup holders and storage; comfy seating that converts from (B) cruising to (C) sun lounge with a cozy sleeper option; (D) European-style custom glare resistant dash with oversized windscreen and room for full instrumentation.

"We were looking for an exquisite pontoon. What we found were a lot of nice boats. Then we spotted an LSi.

We're not looking anymore. This boat earns compliments and second looks whenever we take her out. The reasons start right at the water. Those huge, all-welded 27" tubes get attention. They also give the stable ride we need when we're entertaining more than a few friends. And everywhere you look- or sit, or lounge- there are features to really appreciate. The roto-cast furniture and upholstery are incredibly luxurious. The lines are elegant, the finish flawless and the craftsmanship impeccable. The LSi is nicely appointed with pop-up privacy curtain, AM/FM stereo cassette, European dash and helm design and cavernous but inconspicuous storage. There's also the Hydro-Tech transom, exclusive rolled channel fencing and full length extruded keels, but let's not get too technical. The LSi is a pontoon well conceived and well bred. It lends the feel of a Champagne cruise to every outing on the water."

een

There are plenty of extras aboard including (A) lockable rod storage that safeguards rods when not in use; (B) optional playpen cover to protect your rig from weather and sea gull sorties.

Your CFi has features like (C) hidden console storage; (D) troll motor battery storage in the bow; (E) Pop-up privacy enclosure for changing or optional Porta-Potti.

"When we go out fishing, we want to include our kids. The kids' idea of fun is hauling all their friends along.

And each one wants their own fishing pole and special spot to cast from. That's why we own a Crestliner CFi pontoon. We can do a little cruising, a little fishing and everyone can join the fun and be comfortable. We have five Pro-Form fishing seats, rod locker and two huge aerated livewells. We're all set for sliding into a quiet bay to cast for bass or pop a few sunnies. When the day gets lazy, the kids- all of them- stretch out on the cushy sofa while I put my feet up in the shade of the bimini top. There's a pop-up privacy enclosure so we can slip into suits for a dip before making our way back home, sunburned

and lovin' it. Any day we spend together is always time well invested. And a CFi makes each one a memory."

New for 2001 is the rec... that features a 19 gallon wrap-around storage and

The Sport LX's (A) optional entertainment center includes storage, sink and cooler. It's fast and easy to keep your Sport LX covered and protected with our (B) optional, custom-fit playpen cover: and the (C) pop-up privacy room is great for changing or optional Porti-Potti.

"At first, we thought about adding on. But then we decided it would be more fun to park a family room at the end of our dock.

We don't even have to leave the dock to enjoy our Sport LX. We can lounge around, listen to tunes, kick back and watch the lake traffic. It's just like having a family room on the water. Our Sport LX is comfortable and built with the quality we've come to expect in a Crestliner. It offers special fishing and cruising packages that made it real easy to get our favorite features. The standard cruising package has L-lounge seating aft and two forward lounge seats. The optional fishing package also has L-lounge seating aft and two pedestal fishing chairs, aerated livewell under the port lounge seat, troll motor outlet and troll motor accessible gate in the bow. Our model offered other options we liked like gas grill, stereo AM/FM cassette and boarding ladder. The Sport LX gave us a place the family could enjoy together—without even getting a building permit."

1680 SPORT

(Standard model comes with helm and one Pro-Form seat)

Start with the (A) basic Sport layout and customize it to your own custom design. You'll get extra storage space like (B) underseat compartments and quality features like (C) all-aluminum member construction with our exclusive Hydro-Tech transom for smoother, faster

"You know those buffets where you load up a plate with whatever looks good to you? That's pretty much how it worked with our Sport."

Choosing the options for our new Sport was an exercise in controlled abandon. We wanted a pontoon with Crestliner quality. You know, with touches like their sealed pontoon bulkheads, Dock-Gard bumpers and the other innovations. From there, everyone lobbied for the options they wanted. I'm not sure if what we ended up with is more of a fishing or cruising pontoon. But I do know that our Sport is the perfect boat for our family. We held family meetings and wrestled over choices like fishing seats or lounge sofas. I wanted the built-in fuel tank, Herb wouldn't be talked out of his fishing options. And the kids were dead set on the AM/FM stereo cassette system. We started out looking at the 1680 but ended up with the 2080— all the more room for adding options and keeping everybody happy."

202 TOURNAMENT SERIES DC W/WINDSHIELD

Innovation is standard on Tournament boats with (A) locking, oversized molded glove box; (B) easy access expanding cargo net storage; (C) rod management system that lets you slip each rod gently into its own individual compartment; (D) deluxe helm and cockpit with custom dash, tilt steering, AM/FM stereo cassette and wraparound control center; (E) specially-designed aerated bait stations fore and aft feature removable bait buckets to keep bait alive longer.

"I've tournament-tested every boat out there so I know the real deal when I see it. Believe me, you're looking at it.

Forget about options, the standard features alone make these rigs too much to resist: mammoth livewells with Crestliner's exclusive Flow-Rite™ system, the premier livewell system made for tournament fishing; pre-wired, heavy-duty troll motor plugs; rod management system; reserve fuel system; integrated bait buckets; more cargo room, both dry and netted. That's just the start. The heart of the Tournament series is that rock-tough all-welded hull. Under it, there's the TruTrac center keel with Quick Shot transom that lets you fire out of the hole and fly smooth and dry. It also gives you better tracking when you're trolling in a wind- and that's a real edge. I've seen it all. And the way I see things now, there's no rig more 'pro-active' than my 202. This one offers it all and gives me a real shot at grabbing it all in every tournament I fish."

The Water Calls

1 8 2 T O U R N A M E N T S E R I E S S C

All Crestliner Tournament Series boats feature the state-of-the-art Flow-Rite™ livewell/baitwell system with an exclusive 100% backup. The Flow-Rite uses an intricate series of pumps and freshwater pick up systems to deliver your catch to the scales in the best possible condition. This is an exclusive system. No one has a more sophisticated aerating system. Period.

No livewell/ baitstation in the industry can touch our (A) unique Flow-Rite™ recirculating system that is exclusive to the Tournament Series. Other features include (B) bow control panel with troll motor plug, motor tilt, livewell light switch; (C) built-in, slide-out tackle trays; (D) extra wide, easy access battery compartment; (E) battery monitor and 12v accessory plug.

"Once I knew I was ready to step up to a pro-style boat, deciding which one to buy was really no decision at all.

People tell me I'm wired a little tight. I don't see it myself. But that could be why I was naturally drawn to a 182. This boat is intense. Nice tight floor plan. Loads of performance features. This rig always puts me into the zone and we run like one unit. My 182 has plenty to please any angler who's serious about fishing: pro-sized, Flow Rite livewells, baitwells, rod management system, cargo net and true dry storage. And all the instrumentation a guy could want, within easy reach. The 182 is designed with that exclusive Crestliner TruTrac center keel and Quick Shot transom. So it tracks on edgy structure better than mud on white carpet. I'm a bit of a lone wolf, so I like the side console. But I'm seeing a lot of dual console models on the water, too. A few of my buddies will always swear by their tiller. They can still get it with a 182. When you're ready to step up, the 182 has just what you need to really step out, too."

172 TOURNAMENT SERIES SC

172 TOURNAMENT SERIES TILLER

eight

(A) The Crestliner Staff Pros compete all over North America. Their insights were instrumental in helping us develop the innovations and design of the most sophisticated tournament boats on the market

The 172 has all the features preferred by pro anglers including (B) tiller control center with instruments, electronics compartment and room for graph, flasher, even a marine band radio; (C)

"When I fish structure, I'm a control freak. For pinpoint control, even in the wind, my boat is a wide beam 172.

I appreciate big, roomy pro-style walleye rigs as much as the next guy. But I've got to have control under all conditions. And this baby gives it to me. My 172 is a side console, but I could have opted for a tiller. I like the deep hull sides. They've got a solid, stable feel. And, with all the features on this boat, I'm ready for virtually anything. There's a reserve fuel reservoir, rod management system that individually cradles each rod and lots of room to stow gear in the cargo nets and true dry storage area. Compare my boat with anything being fished on the circuit today and you'll find there's nothing lacking. Fact is, I've got goodies those other boats don't. The Flow-Rite™ livewell system is so far ahead of the market it doesn't even realize it's being followed. Rated for a max hp of 150, this baby moves out, and yet when you ask, sits right down for trolling. If you press me I'll admit

that there are some things I can't control and I'm not happy about that. But when I'm on fish in my 172, everybody knows who's running the show."

FISH HAWK DC

1750 FISH HAWK TILLER

These rigs are moveable fishing factories loaded with extra angling features like (A) aerated livewell/baitwell system (baitwell shown); (B) locking rod lockers and rod savers; (C) lots of storage to stow all kinds of gear beneath the bow casting platform; (D) 12 volt accessory plug for plugging in your cell phone (if you absolutely insist on having one) and running other accessories.

"I'm out to find fish, even if it means jumpin' lakes. With the Fish Hawk, I've got the right rig to do it."

In the Fish Hawk 1750, I finally found a boat that was as flexible about fishing as me. This rig gives me serious fishing features plus the ability to drop a fully rigged fishing machine into wherever the action's hottest. This boat is for folks who think about fishing first and everything else second. The 1750 has all-welded construction with a reverse chine hull design and an exclusive Extruded Gunnel System they call the XGS. Whatever they name it, I call it strong and responsive. The super-wide, 91" beam means there's no boat in its class more stable. There's a built-in 26 gallon fuel system, huge aerated livewell and separate baitwell. When I fish, I call a few baitstores, check on the action, and then get out and fish hard. The 1750 is always right with me—loaded, ready and itching to get after it."

MERCURY
The Water Calls

The new helm (E) has ergo-engineered control center with Aero-flow, wind-screen that drafts air around you, room for full instrumentation and deep cockpit for extra leg room. Dual console model with port console (F) available.

FISH HAWK 1650

1650 FISH HAWK TILLER

MERCURY
The Water Calls

1650 FISH HAWK SC

The Fish Hawks feature aerated livewells that recirculate baitwells that keep bait longer. The all welded, (B) reverse chine construction has a spray deflector engineered into the hull for fast planing and dry ride. There's a (C) custom-fitted canvas cover

"We do the city thing all week, then beat it to the lake only to find neighbors on our dock waiting with their fishing rods.

Maybe quiet, secluded weekends at the lake would actually turn out that way if we didn't own a Fish Hawk 1650. But then, we wouldn't be in such a rush to get there either. There's nothing I like better than climbing aboard this beamy boat, pointing her out into the lake and letting the wake swallow up the stress of the week. Yup, my 1650

packs in a lot of features and every inch of it is a Crestliner, decked with quality and all the fishing features ordinary boats (like my neighbors') don't have. Pro-Form fishing seats, casting platform with tons of storage, big aerated livewell, lockable rod locker and rod savers. All backed by a warranty that's second

to none. Now that I think of it, I don't mind being bugged by the neighbors, just as long as I can get out alone every once in a while."

FISH HAWK 1600

1600 FISH HAWK TILLER

1600 FISH HAWK SC

Your Fish Hawk is packed with extras you just won't find on any other boat in its class (if you could actually find another boat in its class); extras like (A) giant aerated livewell with mega deck storage in the bow; (B) smooth, rugged XGS extruded gunnel and Dock-Gard bumper system that protects your boat and won't nick your fishing line; (C) engineered, molded helm with European style Aero-flow windscreen, room for full instrumentation and super-deep, roomy cockpit; (D) oversized, easy access fuel tank and battery storage area aft.

"With all the kids' activities, we don't get a lot of time for us. When we do, we want a boat that's ready to go.

On those rare occasions when we stop running and can see our way clear to steal away for a little fishing, we do it aboard a Fish Hawk 1600. With our tight schedule, we appreciate things that don't turn life into just another drill. Our Hawk gives us a lot of fishing features without a lot of fussing around. It's a top-quality boat that's virtually maintenance free. There's an aerated livewell, troll motor outlet, rod locker, pedestal fishing seats and lots of roomy storage. All built on a rugged Tru-V, Uniweld hull. This boat is a great value. So is the way it's backed by that Crestliner 20+3 protection plan. Kids grow up and move on. Time

slips away almost before you realize it. When we're in our Fish Hawk, we slow down a little. That's when we can see that it's times like these, the times we spend together, that will give us the fondest memories."

Johnson

POWERED BY DEPENDABLE JOHN
OUTBOARDS

Your Angler is rigged with true fishing features like (A) Pro-Form fishing seat with ergonomic designed for no-pinch back support and comfort; (B) cargo net storage mounted to the seat back to keep maps and other stuff within easy reach; lots of cavernous storage areas (C) beneath the casting platform and (D) everywhere you look.

Tough molded helm (E) has Aero-flow windscreen, room for full instrumentation and lots of leg room.

"I fish mostly on long holiday weekends and never got used to bench style boats. I'm real comfortable with an Angler."

I've always thought bench-style fishing boats were a pain in the rear. The longer the weekend, the more I'm convinced that's true. These days, I have more time to fish and the Angler is one way I can feel comfortable about doing it. These are deep and roomy boats with wide, stable beams and rugged, all-welded aluminum hulls. They offer way more than a bench boat, for about the same monthly payment. They have plush, Pro-Form fishing seats (about time somebody thought of that), large livewell, rod locker, even a bilge pump that's standard. The raised bow deck is ready for fishing with a pedestal seat base and storage underneath. There's even a side console model available.

I checked it out and was really impressed by the roomy cockpit.

There are loads of other options available. I'm guessing that now that I own an Angler, I'll find a lot more excuses to go fishing."

SS SERIES CVX

CVX 182 BASS

MERCURY
The Water Calls

- eight

You'll be impressed when you check out the features like the (A) extra built-in, locking storage compartments; (B) rod management system that cradles each rod like a baby; (C) Aero-flow helm with wraparound controls, easy-to-read instrumentation and a convenient locator mount.

"I bought my CVX to fish bass but my buddy swears it's a musky boat.

To look at it, you'd take my Crestliner CVX 182 for a classic bass boat. The rock-solid hull is all welded aluminum, so it gets me further and faster on less horsepower. And this rig is loaded- I mean it has everything you'd expect to find in glass bass boats plus a lot of innovations you

won't. The beams are wide and stable, the casting decks big enough to homestead. It has two aerated livewells, pre-wired 12/24 volt troll motor control center and lockable rod management system. The cockpit has custom dash and more legroom than other bass boats I've fished. There's so much storage you could live on the thing. The neat thing is, when I'm slingin' for musky, this boat acts like it was built for it! So much so that my buddy Jim is buying one. And that's all he fishes for. Here's to our next 40 incher."

SPECIFICATIONS

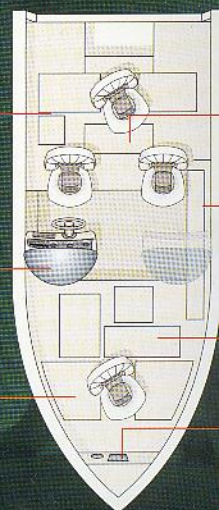

CVX 182 BASS

Overall Length	18'2" (5.5m)
Maximum Beam	95" (241cm)
Approx. Weight	1300# (590kg)
Max. Weight Capacity	1425# (646kg)
Recommended H.P.	70-150
Fuel Capacity	35 gal. (132L)
Alum. Gauge/Bottom	.100
Alum. Gauge/Sides	.090
Alum. Gauge/Transom	.125

CVX Available in Almond Base and all 2001 Crestliner Accent Colors

A lot of anglers exchange the bow Pro-Form fishing seat for our (D) optional fully padded, standard butt seat- or if you prefer a posterior perch- with pedestal.

- Stern Storage Compartments
- Crestliner Graphics Package
- No Feedback Steering System
- Custom Console w/Dash & Windscreen
- Electric Bilge Pump
- Bow Storage Compartments
- Navigation Lights w/Bow Task Light

- OPTIONAL:** • 15 amp Max Pro 2 Bank Battery Charger • Custom Fish Locator • Exchange Bow Pedestal Seat for Butt Seat • AM/FM Stereo Cassette w/2 Speakers • Custom Travel Cover

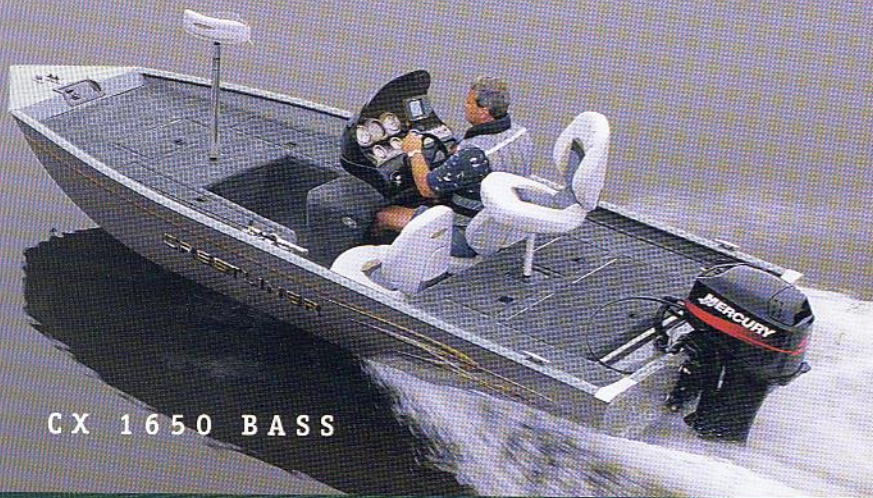

SS CX

CX 1860 BASS
(Shown with optional port console)

1754 BASS

CX 1650 BASS

When you're running and gunning, fishing where it's hot, you need features like we've packed into our CX. Aft (A) there's a divided, aerated livewell, easy-access battery compartments and tons of below-deck storage. Up front (B) there's a lockable rod locker and cavernous under-deck storage that's easy to get at through the oversized access door.

"A perfect day is a CX, a buggy backwater and me jerking bass or cats out of cover.

Granted, my perfect day wouldn't appeal to everyone. But, hey, I'm a bass guy, what can I say? My CX was built for guys like me. Its aluminum, super-rugged, modified V-hull construction is super lightweight to get me around the stumps, through shallow water and put me on my favorite spot fast. Every inch of this rig is decked with features designed for my kind of fishing. Pro-Form fishing seats, rod lockers, huge divided aerated livewell and more. The cockpit is comfortable with ample leg room and the custom instrument panel. The carpeted deck gives you plenty of room to move around and change flipping directions fast. There's plenty of storage for gear and munchies. And the stealth gray finish makes you look like you've been here a time or two, instead of being all glitter and show. I'd say this boat is just what you

need to get out and kick some serious bass."

"How do you improve a design? That's easy. Go to the next level. Crestliner lines and quality." These days, there's nothing basic about quality and value. They're not just some boats. But I found plenty of both in a Sportsman. These boats have aluminum Tuff-Weld hulls with welded keels. Sportsman boats offer level decks, touch DecraGuard seating, and sharp, clean Crestliner graphics. My Sportsman has a level and flat floor. The X series boats have riveted hulls that make them easy to load and toss on a cartop carrier. Add up the features of these boats and the value you get behind its Sportsman line with a 20+3 Protection Plan. You may not help but be impressed at how far basic has come.

st bought the 1860 DLX.
called it a utility boat.
l it a great catfishing
ackwater weapon.

I'm not forgettin' that a Jon is a utility boat, so 'excuuuse me' for wanting to use it to chase cats or lunker bass. I can do that in a Crestliner. These Jons are rugged. Wide and stable workhorses built to take whatever your job dishes out.

Modified V-hull, heavy-duty framing, oversized ribs, Top Trak gunnels and composite construction. There are models with side consoles, center consoles and tillers. All in lengths 16-20 feet. Heavy-gauge hulls are standard as are skid-resistant floors and level flotation. You can get a rod and gear locker, livewell and navigation lights. You can even get camouflage paint. Backed by the best warranty in the business. Now lets get after those cats."

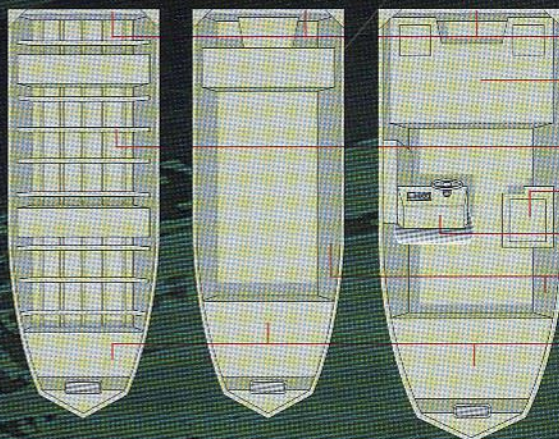

Our top-line Jons offer features to make your job easier and a bit more organized. The 1860 JWMV DLX has (A) twin storage areas aft to tuck batteries safely away. There are (B) center consoles available on many models.

JR 1436

JR 1448

JR 1648

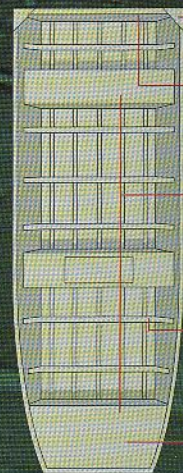

"My hunting buddies tried to tell me they'd settled down. I just smiled and ran off to buy a Crestliner."

I needed a boat light enough for me to toss in the back of a pickup. And it had to be tough enough to stand up to my hunting buddies and those rowdy fall weekends. If there was any boat maker that could fill that bill, it had to be Crestliner. I checked it out and wasn't disappointed. This is the only riveted Jon I've seen built to welded boat standards. They have oversized ribs and super strong framing that can really take a pounding. My first choice for color was olive drab; good thing because it's standard. So are die-cast bow and stern handles, level flotation, composite transom and oar locks. When we go hunting, we rough it in more ways than one. That's reason enough for my Crestliner to qualify as the perfect hunting rig."
